

CCG and Aimar / SAC formed cooperation

Effective November 09th, 2006, we would like to announce the purchase of 65% of the equity of Aimar / SAC, a network of dry cargo freight forwarding located in South America. Currently with offices in Lima, La Paz, Santa Cruz, Guayaquil and Quito.

The purpose of the investment is to expand CCG's specialized perishable concept to the Latin America markets namely in Peru, Ecuador and Bolivia.

The CCG-Group is planning to add the specialized services in perishable commodities to the existing service patterns in each country. CCG will focus on creating a dedicated and expert working force. It is anticipated that by the middle of 2007 every office would be substantially adding our specialized perishable trade to the existing dry cargo services in Latin America towards Europe, USA and Asia.

Aimar / SAC presently enjoys a full scale cooperation as general agents in Bolivia, Ecuador and Peru with one of the largest and prestigious worldwide freight forwarding networks called ABX Logistics. ABX Logistics is headquartered in Brussels, Belgium (www.abxlogistics.com).

CCG and the present management of Aimar / SAC have created an ambitious business plan for 2007, concentrating on the profitable merging of the worldwide synergies of both organisations for dry and perishable trade.

For further info you can get in contact with CCG Regional Director Latin America Mr. Carlos Gil by phone: +56 (2) 7498 544 or email: carlos.gil@coolchaingroup.com as well as with our partner and General Manager Ecuador Mr. Andrea Ursini by phone: +51 (1) 440 0906 or email: andrea.ursini@coolchaingroup.com.

CCG's mission statement:

"We provide services orientated to improve the supply chain for perishable goods by ocean, air and truck from source to destination, maintaining quality and increasing Shelf life to assure the best possible product to consumers at the right cost.

We will partner with people and organizations who understand the need to maintain profitable operations, who can work together fairly and efficiently to achieve a balance of our stated goals."
